The grounds and facilities of Edmund Rice Centre

This year's ANZURA Annual Conference will be held 4–7 October at the Edmund Rice Centre (Amberley) in Lower Plenty, Melbourne. A retreat and conference venue situated on the Yarra River in Lower Plenty. Nestled on 20 acres of native bushland, we will be surrounded by the peace and tranquility that only the natural bush setting can provide.

Theme Urantia Stock-Take – Past, Present and Future – How are we travelling? "Are we there yet"? If not, what do we need to do?

"Are we there yet"? Well, we're working on it aren't we? "How are we travelling?" and "What do we need to do to get there"? These are the big question we will attempt to tease out at this year's conference. The information revealed in *The Urantia Book* is a treasure-trove of spiritual insight, cosmic revelation, and historical knowledge. The answers to these questions are all in there just waiting to be discovered. The importance and seriousness of this storehouse of priceless gems is almost beyond description. The unveiling of the true teachings of Jesus and who he actually was and where he came from, gives power to those compelling teachings on Faith, Worship, Service, and Love. We need to be passionate about the entire Urantia revelation—from the Paradise Trinity down to the material worlds—to understand the significance of the big picture we are given of the past, present, and future of ourselves and the cosmos.

The world's problem is the individual problem. Reality is made up of an accumulation of our decisions—the consequences of which fan out to the broader community. Each one of us can make a big difference when we embrace a true and living faith and when we are wholeheartedly dedicated to the doing of the Father's will. This national gathering will give us the opportunity to enjoy the process of idealising our future. We can each bring our own understandings, interpretations, and experiences to the table and get those ideas out to the 'movers and shakers' of the Cosmos. Because we are all unique, we will naturally find different ways of sharing the teachings—let's not forget what we are told about the apostles:

They made no effort to teach alike; there was no standardized or dogmatic formulation of theologic doctrines. Though they all taught the same truth, each apostle presented his own personal interpretation of the Master's teaching 148:1.2 (1658.1)

We hope you will join us in discussing this life and its challenges. We will refer to the material found in *The Urantia Book* and consider the hurdles and disruptions we face in achieving harmonious progress. We will discuss the role this information can play in helping us to grow spiritually and to become positive and valuable citizens. When we "*dare to be Godlike*" 160:1.12—the fruits of the spirit make us spiritually fragrant providing the power to spread the "*benign virus of love*".

If each mortal could only become a focus of dynamic affection, this benign virus of love would soon pervade the sentimental emotion-stream of humanity to such an extent that all civilization would be encompassed by love, and that would be the realization of the brotherhood of man. 100:4.6 (1098.3) emphasis added

"Freely have you received; therefore freely should you give of the truth of heaven, and in the

typical room

giving will this truth multiply and show forth the increasing light of saving grace, even as you minister it." 176:3.10 (1918.3)
