

“The theme is “THE BOOK AND I”. For most of us, the finding, reading and interpretation of the meanings of *The Urantia Book* is a very personal experience, and a moving one.

At this conference presentations will be made on this theme with each speaker expanding on their favourite part or theme which has a deep meaning for them or of which they never tire of exploring.

Apart from the keynote sessions every one will take part in the work shops where each person can have their say on “THE BOOK AND I”. This could be a 5 or 10 minute talk on how you found the book, what the book changed for you or what parts of the book have a special meaning for you.

You will need to get your imagination into overdrive! Saturday night is fancy dress night and you should be dressed in costume as a person, place, time, or thing from *The Urantia Book*.

Bring a camera as there could be some pretty strange stuff going on. That's not all, each reader group or any other group should prepare an entertainment for Saturday so it should be a very social night.
